

Dear Mr Galinis,

I am Betty's
husband and was a general
practitioner in a small town
of 5500 people with no
specialists to call on. As a
result, I did everything from
children's dentistry to their
grandparents partials and
dentures.

Never in my 33 years
did I make anyone a
temporary bridge as
beautiful as the one you
made for Betty. Your
skill and talent are great
and I salute you.

Sincerely
RHP DMD

PS. Hope your lab
is at good.
