

Dear Dr. Galinis:

Today I visited my nephew Dr. Fran. He was most complimentary regarding your work. He said it was a wonderful job. He looked it over very carefully and agreed with me that you are an excellent dentist. He also said that you must have a really good lab to produce such fine looking teeth. He also inspected my gums and thought they looked very healthy. He looked the bridge over from top to bottom and side to side all the while expressing positive comments. Once again, many thanks for your terrific talent. When I wrote to you previously I mentioned sending you some caramels for you and your staff.

Sister Janice from St. Mary's Abbey phoned me to say that they are not making caramels just now. She suggested that I might like to send you their chocolate with almonds. Therefore, I accepted her suggestion, and she will be sending it along.

Since the nuns from Crozet have not phoned, I expect the Gouda cheese (especially for you) should be forthcoming.

Life doesn't seem the same without my constant visits to Dr. Galinis. It's much colder here than in Florida, and I wish you were getting some of the rain we have been experiencing.

All the best to you and your staff. Tell all your patients how lucky they are to have some a fine dentist.

Sincerely,

A handwritten signature in cursive script that reads "Celia".
