

January 22, 2014

Dear Dr. Galinis,

From my first appointment with you, over ten years ago, I came away with a great feeling of confidence. "I had found my dentist"! Your obvious professionalism, and projection of genuine caring, made that visit, and every one since, "very comfortable". That may be a strange word to describe a dental experience, but it fits well.

I am now getting a little more required medical attention than I wish was necessary, and it is a little confusing. But your kind and thoughtful treatment of me the other day was a delightful lift. I'm sure you know, it was more than the cost, which was also appreciated. It was, however, the kind gift from a well respected professional, which sent a timely message of caring at just the right moment. Thank you.

With kindest regards,

*George*

YOU PUT IT THERE!

THANKS!
