McGill Dental Group  
400 E. Osceola Street  
Stuart, FL. 34994

May 26, 2000

Dear Dr. Galinis:

Thank you very much for giving me back my smile. I certainly appreciate your painstaking attention to my major problem.

It was kind of you to fit me into your busy schedule in such a professional manner and with such great knowledge of the complete picture. You somehow figured out how to complete the necessary dental work in just exactly the correct timing.

I am sending you some Gouda cheese from the Blue Ridge Mountains of Virginia. It is made by a branch of the Trappistine nuns who originated from their mother house in New England. This is for you to enjoy in your home.

I am also sending you something that may not be appropriate for a dental office, but perhaps a little delicious chocolate covered caramel could be tried occasionally. This is for the many wonderful people who assisted you during my appointments. This is made by the mother house in New England, and there is none better. I dare not mention all of the names of your people for fear of leaving someone out. I enjoyed them all very much.

You have a very happy office, and it was a wonderful experience for me. They are lucky to have such a marvelous dentist like you among all those great people. You not only have great professional knowledge but you mix it well with your magnificent personality.

All the best to you.

Sincerely,

  
Cecilia
